WASHINGTON, D. C. 20002

## Bragg performs

Bernard Bragg, Gallaudet's Artist-in-Residence, performs before a group gathered at the Ellipse April 1 to celebrate National Mime Week. This annual event also featured Sen. S.I. Hayakawa of California, who read a Senate resolution proclaiming the week of April 1-7 National Mime Week; Lou Jacobs, well-known clown with Barnum & Bailey Circus; and Mrs. Marion Barry, the DC mayor's wife (far left). A color guard and band added to the festivities, which culminated with a parade to the Corcoran Gallery where mimes gave impromptu performances during the afternoon. Bragg, co-founder of the National Theatre of the Deaf, was the first American to ever study privately with the great French mime, Marcel Marceau.

## Free medical tests available during Health Care Week

Health Fair Week is scheduled for April 14-20, and a number of locations throughout the area will be offering free medical tests. You can get a free screening for height, vision, blood pressure, weight, anemia, sickle cell anemia, and other disorders. Hearing, glaucoma, Pap smear, breast cancer and TB tests will be available at some locations. In addition, for a fee of \$6-7 blood tests which will show if you have diabetes, kidney or liver disease, gout, high cholesterol, thyroid disease and many others, are available.

Gallaudet's Demonstration Program and Student Health Service will be providing volunteer interpreters at five different sites during the week: Landover Mall, Landover, MD, April 12, 12-4 p.m.; Lakeforest Mall, Gaithersburg, MD, April 13, 12-4 p.m.; Providence Hospital, 1150 Varum NE, Washington, DC, April 16, 3-7 p.m.; Springhill Lake Apt., Greenbelt, MD., April 17, 4-8 p.m.; and Thomas Jefferson Jr. High School, 125 Old Glebe

Road, South, Arlington, VA, April 19, 12-4 p.m. Pre-registration (at any Peoples Drug Store or through Demonstration Programs) is required for the Thomas Jefferson location.

The College is also involved in staffing a TTY phone line Monday through Friday for Health Fair information. That number is x5597 and is active from 2-4 p.m.

Organizations participating in the Health Fair include the American Academy of Ophthalmology, American Cancer Society, American Heart Association, Potomac Lung Association, American Red Cross, Georgetown School of Nursing, George Mason University School of Nursing, Columbia Union College School of Nursing, Howard University School of Nursing, Northern Virginia Community College School of Medical Technology, Northern Virginia Community College School of Nursing and Prince Georges Community College School of Nursing.

## Project Information survey shows campus concerns

Over the past few months all campus personnel have received questionnaires from College Council members as part of Project Information. For those of you who may have forgotten, the goals of the Project are threefold:

- To provide members of the campus community with information about new, old and changing programs.
- To provide the campus with the opportunity to hear directly from people involved in these programs.
- To provide a forum within which issues can be raised, questions can be asked and suggestions can be made.

At this time, a total of 252 questionnaires have been returned and compiled. The questionnaires were designed to find out each respondent's major concern. About half the respondents identified one primary concern, and others identified two or more. Issues that a significant percentage of respondents identified as a primary concern were:

STAFF WELFARE (salaries, benefits, status, development, etc.)  
FACULTY WELFARE (salaries, development, simcom etc.)  
COMMUNICATION/RELATIONSHIP between:  
deaf/hearing  
faculty-staff/students  
faculty-staff/administration  
units/divisions/schools  
TEMPORARY EMPLOYMENT (benefits, security, opportunities)

SECURITY (car thefts, vandalism, personal property losses)

The following listing of some of the comments received illustrates the variety of responses. Many comments were evaluated as clearly fitting under one of the "primary concern" categories, and these are not listed here.

Energy conservation on campus.

Lack of time available to work on substantive matters due to the amount of time spent on administrative matters.

Outreach efforts of the College.

Location of information about, by or specifically for the hearing impaired.

Desire for reaction from people on the physical environment (lights, fire alarms, etc.) for the hearing impaired.

Teaching of sign language skills of faculty members.

Better and more interpreting services on campus.

A "back to basics" policy where the primary concern of the College is teaching deaf students.

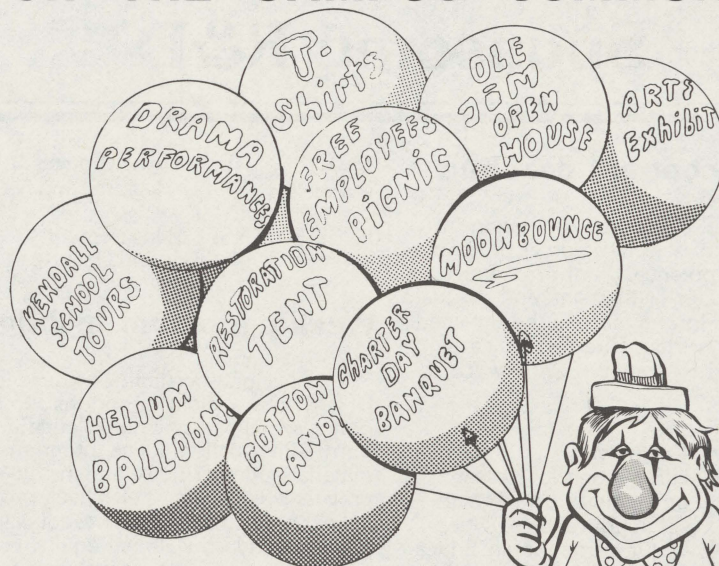

Lack of consistency of functions under similar job titles.

Developing of research and curriculum for the residential programs on campus.

Need for employees to notify the payroll department when they change addresses so that W-2 forms can be sent to the correct address.

continued on page 3

## CHARTER DAY CELEBRATION FOR THE CAMPUS COMMUNITY

IT'S ALL HAPPENING THIS FRIDAY & SATURDAY, APRIL 11 & 12.

Come and help us celebrate the chartering of the College (April 8, 1864). For banquet tickets or more information call Alumni/Public Relations, x5100 or x5104 TTY.

# Serendipity

## Library Bits & Pieces

### Public computer terminal

by Jim Bourg

As a part of its continuing automation program, the Library is now providing computer access to its Deaf Collection and other bibliographic databases via a terminal recently installed on the main floor of the Library. This terminal is intended for direct use by Library patrons and the general college community.

The computerized information retrieval system that provides access to these databases works similarly to the computer systems through which the Library provides computer searches of national databases such as Psychological Abstracts and ERIC. Two major differences are (1) that access is provided to books and other materials held specifically in our Library and the Linguistics Research Laboratory and (2) that the system is easy to use. By learning only a few simple commands, you will be able to find information that may have been previously hard to locate.

We now have four databases available for searching from the Library. Two of them were mentioned above: the Deaf Collection database (DEAF) which now contains about 6700 references and the Linguistics Research Lab database (LING) containing about 800 sign language related references. A third database called NEWBKS contains all the books and nonprint materials cataloged by the Library during the current month. This database serves as an on-line supplement to the COM catalog which is updated bi-monthly. A fourth database of interest, MAGS, is currently an experimental on-line version of the Campus Union List of Periodicals. Access is provided to periodicals by keywords in title and Dewey Decimal classification number.

Come to the Library to try out this new service! This information retrieval system will continue to be accessible from any terminal on campus that has access to the College DECsystem-10 computer.

### Getting into shape

Are you trying to get back into shape after a winter of inactivity? Still trying to lose those extra pounds gained during the Christmas Holidays? If so, Charles T. Kuntzleman, former National Director of the YMCA Fitness Finders Program, has written two books which may be of interest to you.

"Rating the Exercises" (613.71 K8r 1978) by Kuntzleman and the editors of Consumers Guide, investigates every major exercise program. It's a guide to help the individual decide which program is best. It covers everything from aerobics to yoga. A sampling of chapter titles will give you a better feel for this book—"How fit are you?" "Exercise and Weight Control." "How your favorite sport rates as exercise." "Rating the Exercises."

"The Exerciser's Handbook" (613.7 K8e 1978) conveys current information on health and exercise in a question-and-answer format. All aspects of exercise are covered—strength and endurance, weight loss and figure control, avoiding injury, diet, proper clothing and getting started. This book will be helpful in designing an exercise program or in improving an existing one.

For those of you thinking of taking up running, the Library has some books which may be of value to you: "The Joy of Running" by Thaddeus Kostrubula, "Run for your Life" by Art Mullen, "Dr. George Sheehan's Medical Advice for Runners," "The Complete Book of Running" by James F. Fixx, and "The Complete Runner" by the editors of Runner's World.

John Granzen, left, plumber and Ray McCaleb, right, building maintenance manager, both help keep our buildings here on Kendall Green in good condition.

### Hats off to Physical Plant

The recent completion of the new Kendall School facility and the subsequent relocation of faculty, staff and students into the building was a huge success. Timely completion of the task was due largely to a cooperative effort among the contractors, the KDES project management teams, the moving company and our own Physical Plant Department.

On behalf of the KDES faculty and staff, we extend a hearty thank you to those maintenance and custodial crews who helped us during the final weeks of the project. The diligent efforts put forth by these persons made the completion of the building much less "painful" than anticipated.

Special thanks are due to Tom Lillis, Walker Jacobs, Jack Dunn and John Murphy, all of whom added a new dimension to the concept of cooperation, and to the Marriott Corporation, who furnished extra meals as required.

### Funds for summer research available

Funds for a small number of summer research projects by faculty members and graduate students are available from the Division of Research. This support can provide assistance for faculty members and graduate students who wish to conduct research which might increase knowledge in any discipline and/or education-related practice. In order to apply for these funds, a two or three page description of the project is required. This "mini-proposal" should include:

- the major questions for which answers are sought;
- the plan of action, project design, or methodology;
- the value or importance of the project; and
- a general description of the anticipated use of the funds.

These funds have been used typically to support such things as: the printing of protocol materials such as questionnaires, postage, the purchasing of tests and other materials, videotapes, keypunching for computer analysis, the printing and distribution of reports, and the small out-of-pocket expenses associated with the conduct of scholarly research. (The fund is not large enough to provide salary support.) Other good ideas which might further increase research activities are welcomed.

Inquiries should be made to Clarence M. Williams, x5030 (voice or TTY), in the Division of Research, House 3. The deadline for proposal submission is April 14 with decisions to be made that same week.

## Sponsored R&D

### Grant/contract deadline

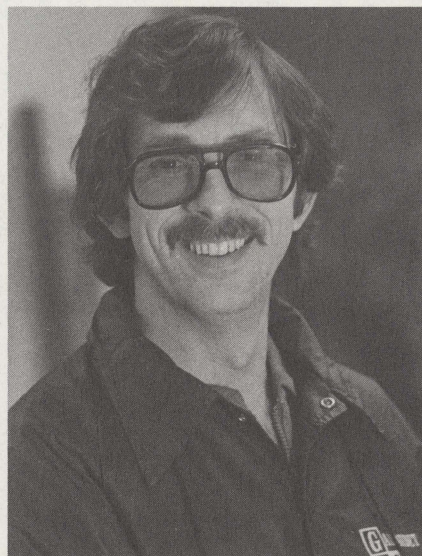

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for faculty, staff and graduate students. More details can be obtained from Glenn Pfau, Director, Office of Sponsored Research, x5030 (Voice or TTY).

Deadline	Program
04/14/80	NIE—Grants for Research on Organizational Processes in Education
04/15/80	USOE—Community Education Program
04/30/80	USOE—Training of Interpreters for Deaf Individuals
04/30/80	DOE—Appropriate Technology Small Grants Program
05/01/80	HSA—General Family Planning Training Grants
05/13/80	NIE—Research on Knowledge Use and School and School Improvement
05/15/80	Center for Field Research—Post-doctoral Scholars to Support 1981 Field Research
06/15/80	NEH—Consultant Grants
06/30/80	NIE—Educational Research and Development

07/01/80	NEH—Higher Education Grants: Regional and National
08/01/80	NSF—Measurement Methods and Data Resources

### Weekly program highlight

The National Institute of Education, DHEW, has a grant opportunity to support research on how knowledge in all forms—information, ideas, programs, materials, administrative and instructional processes, etc.—can be effectively brought to bear on, and help improve, educational practices and educational equity. Five topic areas have been developed for initial study: how schools mobilize for an improvement effort; what processes schools undergo throughout the improvement effort, once set in motion; how characteristics of the school influence the improvement effort; how teachers, principals and other educators in schools acquire and use knowledge related to their work; and methodological and conceptual issues that arise in the content of research on knowledge use and school improvement. The program, having a deadline of May 13, 1980, will award both major and small grants, with average funding of \$65,000 and \$10,000 respectively.

Mike Kaika, program coordinator for the SUB/Ely renovation, is in Prince Georges General Hospital in Cheverly with spinal meningitis. He was admitted to the hospital on March 27 and at press time was listed in fair condition. Kaika's deafness is a result of a childhood bout with the disease, which he has had several times in the past. If you'd like to visit him, call the hospital at 341-2000.

### Barnes resolution focuses on hearing impaired needs

A congressional joint resolution to promote increased public awareness of the needs of hearing and speech impaired persons has been introduced by Rep. Michael D. Barnes (D-8-MD).

The proposal designates May, 1980 as "Better Hearing and Speech Month" and also requests that President Carter issue a proclamation recognizing the continuous national effort to assist persons with hearing and speech disorders.

"If our national goal is full participation in our society by all Americans," Barnes said, "we should demonstrate our commitment to strengthened national effort to assist the many individuals with hearing and speech problems." Approximately one out of every 10 Americans has such a disorder.

"Better Hearing and Speech Month" was first initiated in 1926 by the National Association of Hearing and Speech Action located in Rockville, MD. Activities associated with the month are geared toward alerting handicapped persons to the forms of assistance available to them.

# President's Office Notes

## Dinner/lecture

On Wednesday, March 26, Dr. Paul Cooke spoke at a dinner hosted by the Office of the President. Dr. Cooke was formerly President of D.C. Teacher's College, and is now doing consulting work with the American Association of State Colleges and with the World Peace Center.

Approximately 50 faculty and staff members from various programs on Kendall Green heard Dr. Cooke talk about "The United Nations and Human Rights." Besides speaking of nutrition and shelter as basic human rights, he spoke in some depth about the International Year of Disabled Persons, which is planned for 1981. Although in previous years the United Nations has sponsored "International Years" for Women and for Children, the handicapped population has yet to receive any attention. Dr. Cooke speculated that the United States is clearly ahead of other countries in the area of human rights for "persons with handicapping conditions."

In response to a question from a member of the audience, Dr. Cooke indicated that he would investigate involvement of hearing impaired persons in United Nations work.

## Energy tips

by Jim Hull

A major user of electric power is the color TV set.

Students, faculty and staff are encouraged to turn off unattended TV sets with the exception of the "crossroads" units such as in HMB lobby, College Hall lobby and a few other high traffic areas.

Do your part. Help keep our power consumption and rapidly escalating costs down. Remember, the TV is a useless luxury when no one is watching it.

Thank you for your cooperation.

The Alumni House will be yours. Support it.

Published each Monday for staff and faculty of Gallaudet College by the Office of Alumni and Public Relations.

Gallaudet College is an equal opportunity employer-educational institution. Programs and services offered by Gallaudet College received substantial financial support from the Department of Health, Education and Welfare.

## Theatre Annex

Construction has begun on the new Theatre Annex behind the Auditorium, and workers are presently excavating for the foundation of the new structure. When completed (target date January, 1981) the Annex will contain additional classrooms, rehearsal room and several new offices. Construction of the new Field House beside the Auditorium is slated to begin in early summer. More than 300 parking spaces will be lost with the construction of the two new buildings, but the reduction will be minimized by the expansion of the Sixth Street parking lot. A new parking structure to be built behind the Field House and Annex will be able to accommodate about 250 cars.

## Project Information

continued from page 1

Information on what happens to KDES students when they leave the KDES program so it can be determined if KDES has been effective.

The attitude of paternalism directed toward employees of the Physical Plant Department.

Recognition of interpreters—concern over criticism of interpreters by campus personnel.

Relation of all new schools to the pre-major years/curriculum.

Foreign student advising.  
Need for a psycho-educational evaluation/remediation center on campus.

Establishment of levels of competence for Gallaudet students.

The campus snow policy is not reasonable.

College honors program.

Recognition of the value and respectability of ASL.

Increase in the number of hearing impaired faculty on campus.

Establishment of a major in the area of community guidance as part of the Counseling Department to help cope with changes brought about by P.L. 94-142.

Role and function of the College Council.

Funding for Ole Jim—the lack of funding by the College itself.

Periodic review of the employees' benefit package.

Increasing the use of the campus Library facilities.

Child care services for faculty and staff on campus.

Research concerning reading skills of

hearing impaired students.

Attitudes of students toward Gallaudet College.

Problem of unrealistic demands on the Print Shop.

Problem of inadequate ratio of secretarial help to professional staffers and poor economics of hiring temporary instead of permanent employees.

Slow campus mail.

Parking regulations on campus.

Upward mobility for women at Gallaudet.

The next step in Project Information is a series of meetings that will be held for the purpose of providing campus personnel the opportunity to participate in discussions about the various topics identified through the questionnaires. These meetings will be facilitated by College Council members; it is hoped that the meetings will result in or lead to proposals for action. It is possible that persons attending the meetings will decide to meet again, establish subgroups, ask to meet with specific members of the campus community or ask College Council members to follow up on certain issues or questions; the possibilities are essentially limitless. Eventually, however, any proposals for action will be directed back to the College Council, where they in turn will be directed through appropriate decision-making channels. All reports and meeting results will be published in *On the Green*.

All campus community members are welcome at these meetings. Persons are encouraged to plan ahead regarding such things as office and work coverage and car pools so they will be able to attend. The meetings will be informal. The College Council needs your support and help in order to serve you and Gallaudet College better. Bring a friend, and please be candid!

Meetings scheduled are:

**Meeting topic**  
Staff Welfare

**Room, Time**  
HMB 213  
Tues., April 15, 3-5 p.m.

Faculty Welfare

HMB 213  
Wed., April 16, 3:30-5

Temporary Employment

HMB 213  
Thurs., April 17, 3:30-5  
HMB 213, then break into several smaller rooms in HMB  
Tues., April 22, 3:30-5

Relationship/Communication  
Deaf/Hearing  
Student/Staff  
Admin./Faculty-Staff  
Inter Unit/Division

HMB 213  
Thurs., April 24, 3:30-5

\* College Council members who will assume leadership in facilitating meeting.

## Personalities

**Dan Bryant** recently assumed the position of manager of the Department of Contracts and Operations Services. He has worked at Gallaudet for several years, most recently as project manager for the new KDES building. In new position he will be responsible for contracts, all insurance except for employee health and life, risk management, operations improvement studies and various special projects. His new office is in Room 308, College Hall and his telephone extension is 5452 (voice or TTY). Feel free to contact him regarding any of his areas of responsibility.

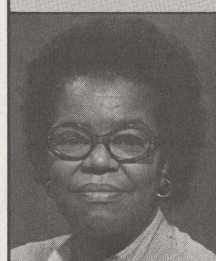

Bryant

Lee

**Dick G. Lee** is a first class engineer with the Physical Plant, responsible for maintenance of boilers and the utility plant. He has worked for Georgetown University for seven years as an engineer.

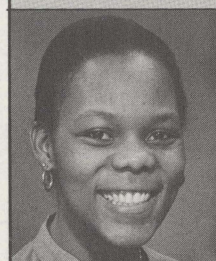

Quarles

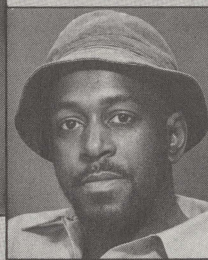

Aqyepong

Six new custodians are among those who have joined the staff of Custodial Services with the Physical Plant. They are **Mary Quarles, Adwoa Aqyepong, Renee C. Daniels, Wendell Bostic, Grace Washington** and **Michael White**. Both day and night, our custodians are responsible for keeping offices and classrooms on Kendall Green in good condition.

# Historical Notes

## Eugene Elmer Hannan— American deaf sculptor

by Francis Higgins

Within Chapel Hall, along the south wall slightly to the right of center, one may find on a wooden pedestal eight feet above the floor a plaster bust of Edward Miner Gallaudet, first president of Gallaudet College. A small brass plate at the top of the pedestal states that the bust, about 22 inches high and 13 inches wide, was a gift to the College by the Class of 1926.

The bust was the work of a deaf sculptor, Eugene Elmer Hannan, who executed a likeness of President Gallaudet with his moustache and a tiny goatee as he looked in his later years. It was Dr. Gallaudet's policy never to pose for any artist, but Hannan prevailed upon him to sit.

Another plaster bust of Dr. Gallaudet as a young man, by T.F. Mills, will be found on the left side of the same wall.

A far greater work by Hannan and probably his most famous one is that of a life-size bronze statue of the Abbe Charles Michel de l'Epee, founder of the first public school for the deaf in France in 1760. This statue stands on the grounds of St. Mary's School for the Deaf at Buffalo, NY, where it was unveiled on Aug. 7, 1930 during a joint meeting of the Sixteenth Triennial Convention of the National Association of the Deaf and the Fourth World Congress of the Deaf. The occasion marked the 50th anniversary of the founding of the Association.

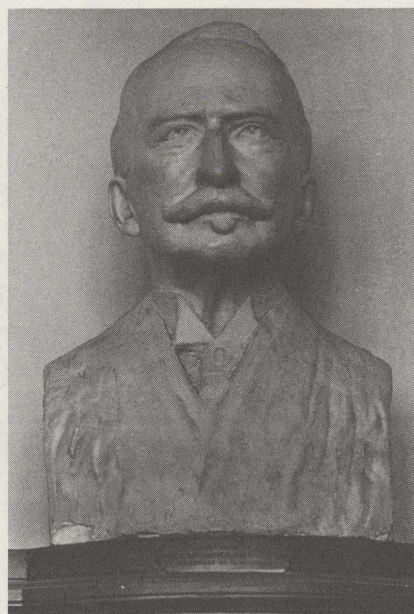

Eugene E. Hannan, a member of the Gallaudet Class of 1901, was born in Washington, DC on July 26, 1875. An only child, he lost his hearing at the age of three as a result of scarlet fever. Hannan enrolled at the Kendall School for the Deaf in 1884 and remained for six years before going to the St. Mary's School for the Deaf in Buffalo. A year later he transferred to the St. John's Institute in Milwaukee, where he first learned the art of woodcarving.

In 1896, he entered Gallaudet College, staying for only one year. He began his formal art training at Washington's Corcoran School of Art, studying there for three years. He then enrolled in the Art Institute in Chicago, becoming a pupil of the famous American sculptor, Lorado Taft. Two years later Hannan joined the Art Student's League in New York City, where he took lessons under such well-known artists as Gutzon Borglum, Herman MacNeil and Richard E. Brooks.

Afterward, the deaf artist traveled to Europe, studying and sculpting in Spain, Portugal, Italy and France for a year. In Madrid, Hannan worked with two famous deaf brothers who were portrait painters, the De Zubiaurres, some of whose paintings are to be seen on Kendall Green. In France, Hannan struck up a friendship with the deaf sculptor Paul Chopin. Hannan became fascinated by the story of the Abbe de l'Epee and his activities in behalf of the deaf in France, and this interest was later reflected in his bronze piece at the St. Mary's School.

On returning to America, Hannan worked for a time in the Washington National Museum as a modeler. He undertook similar work for the American Museum of Natural History in New York and at the St. Louis and San Francisco Expositions.

In 1980, Hannan helped Gutzon Borglum with the latter's work on the sculpting of the bronze statue of General

Edward Miner Gallaudet

Philip H. Sheridan, riding his favorite horse. This monument of the brilliant Union strategist in the Civil War is located at Sheridan Circle in Washington.

Hannan maintained a studio of his own in Washington for a while. During that period, he entered a competition, sponsored by the National Association of the Deaf, against some of the best-known deaf and hearing sculptors in the United States and in Europe for a design of the de l'Epee statue. The selection of his design over others brought Hannan his greatest success as a sculptor. He undertook this work in 1929 in Paris, where the casting was carried out.

Hannan was married to Helen Constance Price, who gave much encouragement to her husband in his work. Beginning in 1930, the Hannans lived in Westport, CT, where the deaf artist contributed many unusual pieces of sculpture to the town. Hannan died on Feb. 7, 1945 at the age of 69, and was buried in the Willowbrook Cemetery in Westport.

## Calendar

### APRIL

**7 - INTERPRETED POETRY READING**, Poets John Peck and Ellen Bryant featured in Library of Congress Poetry Reading, 287-5108. Gallaudet Students will give dramatic interpretations of several poetry readings, 8 pm, Coolidge Auditorium, Library of Congress.

**10 - CLASS**, Demonstration Programs, x5598, "Planning a Second Career," 7 - 9:30 pm.

**11 - INTERPRETED DINNER THEATRE**, "Cabaret," Demonstration Programs, x5598, Colony 7 Dinner Theatre, 6 pm.  
**- GYMNASTICS HOME SHOW**, Gymnastics Club, x5463, Main Gym, 8 pm, 50¢ admission at door.

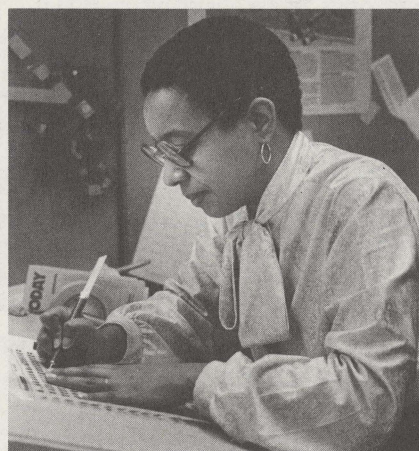

**12 - GYMNASTICS HOME SHOW**, Main Gym, 8 pm, 50¢ admission at door.

**- DAY QUEST ADVENTURE**, Activities Advisors, Student Life, x5747, (Field Trip to Virginia).

**15 - CLASS**, Demonstration Programs, x5598, "Rape Prevention," 7-10 pm, "Easier Planning," 7:30 - 9:30 pm.

**17 - CLASS**, Demonstration Programs, x5598, "Magic," 9 am.

**17 & 18 - SIGNED PERFORMANCE**, "Androcles and the Lion," Dept. of Theatre Arts x5605 (V) x5608 (TTY). Tickets: \$1.50 students & children, \$2.50 all others.

Carmen Gillmore Scott is a production specialist with the G.C. Press.

## Classified Ads

**FOR SALE:** Yorkshire terrier pups. Eight weeks old. AKC papers and shots. Write Myrna Orlect, P.O. 976 or call 441-3488 (TTY or voice) in evenings.

**FOR SALE:** Four new unfinished solid ash wood chairs, Windsor bowback style. Top quality. Made by Nichols & Stone of New England. Call Susan Searls at KDES or Matt Searls at x5638.

## Ford to discuss D.E.A.F. Media

Betsy Ford, associate project director of D.E.A.F. Media, Inc., will be speaking at Gallaudet this Thursday, April 10, at 7:30 p.m. in HMB 309.

Ford's group, located in Oakland, CA is responsible for producing and broadcasting programs on educational TV for deaf children, their families and friends. Last year, D.E.A.F. Media, Inc. produced a series of six programs, entitled *Rainbow's End*, which was signed, captioned and broadcast on PBS. D.E.A.F. Media is now working on another series of *Rainbow's End*.

The Student Union Cultural Affairs program has invited Ford to our campus to speak about D.E.A.F. Media and *Rainbow's End*. She will be telling us how all this began and what was involved in the taping. There will be a short feature from one of the six shows. Ford will also explain how an interested actor or actress can write a good resume. She may share some of her experiences in working in a professional TV studio.

A question and answer period will follow, and you can find out how you can get involved in Tv. call x 5182 or stop by the Student Union office if you have any questions.

## Theatre presents spring production

Gallaudet College Theatre will present *Androcles and the Lion* adapted by Aurand Harris and Victoria Brown on April 17 and 18 at 7:30 p.m. and on April 19 at 2 and 7:30 p.m.

A refreshingly antic, irreverent treatment of the classic legend, the play is adapted to the style of Italian Commedia dell'arte and improvised by a troupe of strolling players and will provide entertainment for children and adults of all ages.

Tickets are \$1.50 for students and children and \$2.50 for all others. Reservations can be made by calling x 5605, voice or x 5608 TTY.

Box office hours are April 14-16 from 2-5 p.m.; April 17-18 from 2-7:30 p.m. and April 19 from Noon - 7:30 p.m.
